World Aids Day

WORLD AIDS DAY

DATE - 01 DEC 2022

World AIDS Day has been observed every year on 01 December since 1988. It serves as a global platform to mobilize people to raise awareness about HIV (Human Immunodeficiency Virus)/AIDS (Acquired Immune Deficiency Syndrome) and demonstrate solidarity against the epidemic. It is an important opportunity for governments, organizations and communities to highlight the current challenges of the disease and the progress made in its prevention, treatment and care. The day is globally recognised as one of the most important international health observations that not only raises awareness but also remembers those who have died due to HIV/AIDS. It also celebrates milestones such as expanded access to health services. By promoting knowledge about a critical public health issue such as HIV, World AIDS Day highlights the integral relationship between fighting HIV and achieving universal health coverage and the right to health.
